

## Ball bearing idler sprockets

For chains according to DIN 8187 - ISO/R 606, Material C45 E.

Our idler sprockets are supplied complete with bearings, ready to be fitted at the relevant tension or driving gear points. The accurate machining and stable assembly on a ball bearing, with double protection, provides greater resistance to loads and wear. The central "extended" ring on bearing, allows easy assembly on all types of special machinery.

Product No.	Pitch	Dimensions							Bearing
